

SupraPlus® Wireless Professional Headset System

Superior comfort, sound quality and mobility
for the office and contact center

The SupraPlus Wireless Professional Headset System was designed specifically for contact centre supervisors and office professionals with phone-intensive responsibilities who demand hands-free mobility along with Plantronics supreme comfort and superior audio quality. The SupraPlus Wireless is built on digitally-encrypted DECT technology and combines the audio clarity of traditional corded technology with the mobility of wireless—so employees can continue digitally secure phone conversations while moving about the office or contact center.

The flexible, extended-wear SupraPlus Wireless delivers:

- Premium quality, secure communications. Leading-edge, voice-dedicated DECT technology provides top-of-the-line audio quality and the lowest probability of interference with other wireless devices. Digital encryption ensures that calls are clear, private and completely secure.
- Crystal-clear transmission. Voice Tube and Noise-Canceling microphone options are ideal for any office environment—even those with extensive background noise. Best-in-class audio quality rivals landline performance.
- Flexible comfort. Designed for over-the-head wear, the SupraPlus Wireless is optimised for comfortable, all-day intensive phone use.
- All-day usage. The SupraPlus Wireless delivers up to 10 hours of unencumbered talk time without recharging the battery.
- Freedom of mobility. Multi-tasking throughout the office environment doesn't need to interrupt important calls. With the SupraPlus Wireless, office professionals and call center supervisors can continue conversations up to 100 metres from their desk phone.

SUPRAPLUS WIRELESS PROFESSIONAL HEADSET SYSTEM

A Hands-Free Approach to Business-Critical Communications

Wireless headsets transform the work environment by facilitating active collaboration and joint problem solving, increasing employee accessibility, and enhancing the ability to multi-task. The SupraPlus Wireless headset is ideal for contact centre managers, knowledge workers and their support staff, office professionals with phone-intensive duties, and any employee requiring optimum communication quality or sound isolation in loud environments.

Choice of Voice Tube or Noise-Canceling Microphone

Select a flexible and discreet Voice Tube boom or choose a Noise-Canceling microphone if you need to filter out background sound.

Monaural and Binaural Style Options

Monaural models give you the ability to converse with coworkers without removing the headset. Or, for total-focus sound reduction, choose a Binaural model.

HL10 Handset Lifter Accessory

The HL10 Handset Lifter adds the convenience of one-touch answering and ending calls while away from your desk by automatically lifting your deskphone handset when a call comes in.

Sound Innovation for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man, one giant leap for mankind." Today, we're the headset of choice in mission-critical applications such as air traffic control and emergency dispatch. This history of proven sound innovation is the basis for every product we build—whether it's for work, for home or on the go.
